Highway engineering
Design Parameters Analysis of Insulated Embankments in Qinghai-Tibet Plateau Permafrost Region — Hai-nian Wang and Ming-jian Dou; 21 (1), 1-18 (2007).

Highways
Numerical Evaluation of Insulation Application to Embankment of Qinghai–Tibetan Highway — Wen Zhi, Sheng Yu, and Ma Wei; 21 (2), 47-59 (2007).

Hydraulics
Assessing the Performance of a Sloped-Block Ice-Control Structure — J. H. Lever and G. Gooch; 21 (1), 19-39 (2007).

Experimental Study of Ice Jam Thickening under Dynamic Flow Conditions — Dan Healy and F. E. Hicks; 21 (3), 72-91 (2007).

Hydrodynamics
Experimental Study of Ice Jam Thickening under Dynamic Flow Conditions — Dan Healy and F. E. Hicks; 21 (3), 72-91 (2007).

Ice flow
Experimental Study of Ice Jam Thickening under Dynamic Flow Conditions — Dan Healy and F. E. Hicks; 21 (3), 72-91 (2007).

Ice jams
Assessing the Performance of a Sloped-Block Ice-Control Structure — J. H. Lever and G. Gooch; 21 (1), 19-39 (2007).

Insulation
Numerical Evaluation of Insulation Application to Embankment of Qinghai–Tibetan Highway — Wen Zhi, Sheng Yu, and Ma Wei; 21 (2), 47-59 (2007).

Numerical models
Cellular-Automata Model for Dense-Snow Avalanches — F. Barpi, M. Borri-Brunetto, and L. Delli Veneri; 21 (4), 121-40 (2007).

Parameters
Design Parameters Analysis of Insulated Embankments in Qinghai-Tibet Plateau Permafrost Region — Hai-nian Wang and Ming-jian Dou; 21 (1), 1-18 (2007).

Permafrost
Design Parameters Analysis of Insulated Embankments in Qinghai-Tibet Plateau Permafrost Region — Hai-nian Wang and Ming-jian Dou; 21 (1), 1-18 (2007).

Numerical Evaluation of Insulation Application to Embankment of Qinghai–Tibetan Highway — Wen Zhi, Sheng Yu, and Ma Wei; 21 (2), 47-59 (2007).

Qinghai-Xizang Railroad Construction in Permafrost Regions — Wu Qingbai, Zhao Shiyun, Ma Wei, and Zhang Luxin; 21 (2), 60-7 (2007).

Piers
Finite-Element Analysis of Helical Piers in Frozen Ground — He Liu, Hannele K. Zubeck, and Daniel H. Schubert; 21 (3), 92-106 (2007).

Porous flow
Assessing the Performance of a Sloped-Block Ice-Control Structure — J. H. Lever and G. Gooch; 21 (1), 19-39 (2007).

Railroad engineering
Qinghai-Xizang Railroad Construction in Permafrost Regions — Wu Qingbai, Zhao Shiyun, Ma Wei, and Zhang Luxin; 21 (2), 60-7 (2007).

Rivers
Experimental Study of Ice Jam Thickening under Dynamic Flow Conditions — Dan Healy and F. E. Hicks; 21 (3), 72-91 (2007).

Seepage
Assessing the Performance of a Sloped-Block Ice-Control Structure — J. H. Lever and G. Gooch; 21 (1), 19-39 (2007).

Simulation
Numerical Evaluation of Insulation Application to Embankment of Qinghai–Tibetan Highway — Wen Zhi, Sheng Yu, and Ma Wei; 21 (2), 47-59 (2007).

Snow
Cellular-Automata Model for Dense-Snow Avalanches — F. Barpi, M. Borri-Brunetto, and L. Delli Veneri; 21 (4), 121-40 (2007).

Soil-structure interaction
Seasonal Frost Effects on the Soil–Foundation–Structure Interaction System — Zhaohui Joey Yang, Utpal Dutta, Deju Zhu, Elmer Marx, and Niren Biswas; 21 (4), 108-20 (2007).

Steady flow
Experimental Study of Ice Jam Thickening under Dynamic Flow Conditions — Dan Healy and F. E. Hicks; 21 (3), 72-91 (2007).

Thickness
Experimental Study of Ice Jam Thickening under Dynamic Flow Conditions — Dan Healy and F. E. Hicks; 21 (3), 72-91 (2007).

Author Index

Barpi, F.
Cellular-Automata Model for Dense-Snow Avalanches — F. Barpi, M. Borri-Brunetto, and L. Delli Veneri; 21 (4), 121-40 (2007).

Biswas, Niren
Seasonal Frost Effects on the Soil–Foundation–Structure Interaction System — Zhaohui Joey Yang, Utpal Dutta, Deju Zhu, Elmer Marx, and Niren Biswas; 21 (4), 108-20 (2007).

Borri-Brunetto, M.
Cellular-Automata Model for Dense-Snow Avalanches — F. Barpi, M. Borri-Brunetto, and L. Delli Veneri; 21 (4), 121-40 (2007).

Daly, Steven F.
The Corps of Engineers *Ice Engineering Manual* — Steven F. Daly; 21 (2), 41-6 (2007).

Dou, Ming-jian
Design Parameters Analysis of Insulated Embankments in Qinghai-Tibet Plateau Permafrost Region — Hai-nian Wang and Ming-jian Dou; 21 (1), 1-18 (2007).

Dutta, Utpal
Seasonal Frost Effects on the Soil–Foundation–Structure Interaction System — Zhaohui Joey Yang, Utpal Dutta, Deju Zhu, Elmer Marx, and Niren Biswas; 21 (4), 108-20 (2007).

Gooch, G.
Assessing the Performance of a Sloped-Block Ice-Control Structure — J. H. Lever and G. Gooch; 21 (1), 19-39 (2007).

Healy, Dan
Experimental Study of Ice Jam Thickening under Dynamic Flow Conditions — Dan Healy and F. E. Hicks; 21 (3), 72-91 (2007).

Hicks, F. E.
Experimental Study of Ice Jam Thickening under Dynamic Flow Conditions — Dan Healy and F. E. Hicks; 21 (3), 72-91 (2007).

Lever, J. H.
Assessing the Performance of a Sloped-Block Ice-Control Structure — J. H. Lever and G. Gooch; 21 (1), 19-39 (2007).

Liu, He
Finite-Element Analysis of Helical Piers in Frozen Ground — He Liu, Hannele K. Zubeck, and Daniel H. Schubert; 21 (3), 92-106 (2007).

Luxin, Zhang
Qinghai-Xizang Railroad Construction in Permafrost Regions — Wu Qingbai, Zhao Shiyun, Ma Wei, and Zhang Luxin; 21 (2), 60-7 (2007).

Marx, Elmer
Seasonal Frost Effects on the Soil–Foundation–Structure Interaction System — Zhaohui Joey Yang, Utpal Dutta, Deju Zhu, Elmer Marx, and Niren Biswas; 21 (4), 108-20 (2007).

Qingbai, Wu
Qinghai-Xizang Railroad Construction in Permafrost Regions — Wu Qingbai, Zhao Shiyun, Ma Wei, and Zhang Luxin; 21 (2), 60-7 (2007).

Schubert, Daniel H.
Finite-Element Analysis of Helical Piers in Frozen Ground — He Liu, Hannele K. Zubeck, and Daniel H. Schubert; 21 (3), 92-106 (2007).

Shiyun, Zhao
Qinghai-Xizang Railroad Construction in Permafrost Regions — Wu Qingbai, Zhao Shiyun, Ma Wei, and Zhang Luxin; 21 (2), 60-7 (2007).

Veneri, L. Delli
Cellular-Automata Model for Dense-Snow Avalanches — F. Barpi, M. Borri-Brunetto, and L. Delli Veneri; 21 (4), 121-40 (2007).

Wang, Hai-nian
Design Parameters Analysis of Insulated Embankments in Qinghai-Tibet Plateau Permafrost Region — Hai-nian Wang and Ming-jian Dou; 21 (1), 1-18 (2007).

Wei, Ma
Numerical Evaluation of Insulation Application to Embankment of Qinghai–Tibetan Highway — Wen Zhi, Sheng Yu, and Ma Wei; 21 (2), 47-59 (2007).

Qinghai-Xizang Railroad Construction in Permafrost Regions — Wu Qingbai, Zhao Shiyun, Ma Wei, and Zhang Luxin; 21 (2), 60-7 (2007).

Yang, Zhaohui Joey

Seasonal Frost Effects on the Soil–Foundation–Structure Interaction System — Zhaohui Joey Yang, Utpal Dutta, Deju Zhu, Elmer Marx, and Niren Biswas; 21 (4), 108-20 (2007).

Yu, Sheng

Numerical Evaluation of Insulation Application to Embankment of Qinghai–Tibetan Highway — Wen Zhi, Sheng Yu, and Ma Wei; 21 (2), 47-59 (2007).

Zhi, Wen

Numerical Evaluation of Insulation Application to Embankment of Qinghai–Tibetan Highway — Wen Zhi, Sheng Yu, and Ma Wei; 21 (2), 47-59 (2007).

Zhu, Deju

Seasonal Frost Effects on the Soil–Foundation–Structure Interaction System — Zhaohui Joey Yang, Utpal Dutta, Deju Zhu, Elmer Marx, and Niren Biswas; 21 (4), 108-20 (2007).

Zubeck, Hannele K.

Finite-Element Analysis of Helical Piers in Frozen Ground — He Liu, Hannele K. Zubeck, and Daniel H. Schubert; 21 (3), 92-106 (2007).

Zufelt, Jon E.

Editor's Note — Jon E. Zufelt; 21 (3), 69-71 (2007).
